**Subject:** Fw: Pavillion Pit Workgroup Call

Dan and David,

Tom Kropatsch of WOGCC is trying to schedule another call on the pit workgroup. Last we left it, the workgroup reached a conclusion that the majority of pits were closed under state OGCC standards, and a few remaining pits were being monitored as part of the DEQ VRP or as a request from the workgroup. The workgroup was trying to report out on the progress in some fashion and we had briefed up the potential options on how to communicate our conclusions from the workgroup. Just as a refresher, there were discussions about the appropriateness of signing off on a report at all vs. saying pits were cleaned to state standards vs. saying pits are not impacting groundwater, etc.

Have we heard anything come back down the management chain on what decisions were made on how to communicate out our conclusions, either independently or as a workgroup?

Also as an FYI, it looks like we might have an in-person pits workgroup meeting in Casper on July 24th. I haven't seen anything more official this this though...

**Subject:** Pavillion Pit Workgroup Call

Hi Everyone,

I guess our next scheduled Pavillion workgroup public meeting will be taking place in Casper on July 24. I was informed that prior to that public meeting the pit workgroup should hold a call to address concerns from EPA that the WOGCC pit closure requirements may be less strict than WDEQ's requirements.

So, there are only a few days prior to that July 24 meeting that I am available. I am out of the office the week of July 16 and have Commission hearings on July 9-10. So I am available on July 5, 6, 11(morning), 12, or 13. Please respond at let me know if any of the dates I stated are good or bad for each of you and I will get a call set up and provide call in information at that time.

I think the well integrity workgroup will be having a call as well but I don't have any specific information - can't remember if anyone is in both groups?

Thanks,  
Tom Kropatsch
